CONSTRUCTION

UPC 105131 / Order M38 /Project: (NFO) 0645-074-755, C501

Contractor: Blakemore Construction
Name: Intersection Improvements at Route 645 (Puddledock Rd.) and Route 144 (Temple Ave.)
CM: Smith
Fixed Completion Date: 09/14/18
Comments: Temporary signalization is in place. Construction of the medians is underway.

UPC 11075 / ST4D-026-F18,P401

Contractor: Whitehurst Paving, Inc.
Name: Surface Treatment Schedule, Petersburg Residency
CM: Nicholson
Completion Date: 10/26/18
Comments: Patching & eradication have been completed. Whitehurst has indicated they will be here late in August to commence the Surface Treatment work.

UPC 111072 / Order M77 /Project: (NFO) PM43-074-F18

Contractor: Allan Myers
Name: I-95 SBL Resurfacing
CM: Miller
Fixed Completion Date: 07/18/18
Comments: MM 43 – 40. All work was complete as of 6/29/18.

TRAFFIC STUDIES/SPECIAL REQUESTS

- Citizen is requesting some sort of guardrail or barrier be placed on the shoulder along the bend of road by the water around the 8400 block of Route 618 (Robin Rd.). Citizen states vehicles go over into the water very often. Request was sent to Traffic Engineering for review.
- Request for speed limit reduction on Route 106 (Courthouse Rd.) from just before the Prince George VDOT Area Headquarters to just past the traffic circle on Courthouse Rd. The location is under review and will update County Board of Supervisors.
- Citizen is requesting that Route 626 (Tavern Rd.) be made into a “No Thru Truck” road. The location has been forwarded to Traffic Engineering for revised traffic count.

Subject: Route 10 Rumble Strip Installation

Dear Mr. Chairman and Board Members;

A study was performed by JMT for the rumble strips that Prince George County requested be installed along the majority of the two lane portion of Route 10 from 642 Beaver Castle Rd. to Route 610 Chippokes Rd./ county line. The work was to be installed with safety and operational funds.

The results of the study has determined that about 70% of the area is considered residential. For this study residential is considered Dwellings within 250' of Route 10 and dwellings of three or more within 1/4 mile of each other.

I will present this information to the Board at the July 10th meeting, and request clarification on how the Board would like to proceed. Since such a large portion of the zone is considered residential you essentially have 2 options.

1. Eliminate the request and only move forward with installation of the snow plowable markers/reflectors along the centerline.

2. Have mumble strips installed which are similar with a lower decibel noise reflected toward the homes. Keep in mind, these will still likely be heard by citizens depending on how close their home is to Route 10.

Neither rumble or mumble strips will not be installing either type in passing zones.

Please note: Both rumble and mumble strips are cut into the pavement and cannot be removed or paved over once installed.
