REZONING CASE RZ-20-04**

SI VIRGINIA II, LLC

PUBLIC HEARING: OCTOBER 27, 2020

Request:

The applicant is requesting to conditionally rezone a 141.79 acre parcel to M-1, Limited from M-3, Heavy Industrial with conditions to allow a distribution warehouse of 650,000 square feet up to 940,000 square feet.

Comprehensive Plan

The Comprehensive Plan shows that the parcel in this area is appropriate for industrial use.

The plan includes additional language which is supportive of this use:

Economic Development Goal #1: To enhance the economic base and employment opportunities in Prince George.

Objective #1: Develop a strong and diversified tax base through guided office, commercial retain and industrial development.

Staff Comments

Planning & Zoning

The primary purpose of the M-1 Limited Industrial district is to permit certain industries which do not in any way detract from residential desirability to locate in any area adjacent to residential uses. The limitations on or provisions relating to height of buildings; horsepower; heating; flammable liquids or explosives; controlling emission of fumes, odors and noise; landscaping; and the number of persons employed are imposed to protect and foster adjacent residential desirability while permitting industries to locate near a labor supply.

1. Parcel 10 was Rezoned to M-3, Heavy Industrial Zoning District in 2019 to permit two uses: (1) Materials recovery facilities, resource recovery/reclamation operations, and (2) Manufacture, compounding, assembling or treatment of articles of merchandise from previously prepared materials including bone, cellophane, canvas, cloth, cork, feathers, felt, fiber, fur, glass, hair, horn, leather, paper, plastic, precious or semiprecious metals or stone, shell, straw, textiles, tobacco, wood, yard and paint. This particular use and tenant will not be locating on this property.

The applicant, through this rezoning application, is downzoning the Parcel 10 and also restricting lot 13 [RZ-20-05] by voluntarily restricting high traffic volume generating uses as described in the Institute of Traffic Engineers Trip Generation Manual.

The applicant is reverting back to the previous zoning classification of M-1, Limited Industrial Zoning from Zoning Case ZM-97-004, but applying several

conditions to the M-1 zoning. The applicant has proffered that certain warehouse uses as described in the Institute of Traffic Engineers Trip Generation Manual 10th Edition be restricted from this rezoning. Should the applicant choose to apply the uses of 155 High-Cube Fulfillment Center Warehouse or 156 High-Cube Parcel Hub Warehouse, the applicant must amend the rezoning case and submit a 527 Traffic Impact Analysis (TIA). As a result of the TIA, the applicant may be required to provide off-site improvements to the transportation network.

2. The applicant has filed a subdivision application to consolidate Lots 10 & 13. The applicant has also filed a site plan application for a 650,000 square foot distribution center.

In summary, Planning staff finds that the applicant's requested uses would be appropriate for this site.

Horace H. Wade III, CFM, Planner II

Building Official:

This request has been evaluated under the provisions of the 2015 Virginia USBC and the 2015 Virginia SFPC. Please note all structures built on this property not meeting Section 108.2 Exemptions for application for permit will be required to be permitted and meet all provisions of the Virginia USBC and the Virginia SFPC.

Dean Simmons, Building Official

Utilities Department:

1. Connection to the water system must be made to existing 12" water line. Water demands must be provided to determine if the water supply is sufficient to meet the demands.
2. Connection to the sewer system must be made to the existing 8" force main using a private lift station.
3. The sewer system that serves this property is near full capacity. Prior to site plan approval, the applicant must perform an analysis to determine if improvements to the existing county facilities are required to serve the needs of the property. Any improvements required will be at the applicant's expense. At a minimum, the analysis must include all existing County facilities that may be affected up to the point of discharge at the pump station located at the intersection of Route 460 and Courthouse Road.

Frank Haltom, P.E., Director of Engineering and Utilities

Transportation:

1. Based upon the information contained within the application and the proffers offered by the applicant, VDOT agrees that the project will not trigger the requirements for a Chapter 527 traffic impact analysis.

2. Quality Way is classified as a local road. The entrance locations shown on the submitted conceptual site plan appear to meet VDOT's Access Management Spacing standards.
3. VDOT has no objections to the proposed rezoning as presented in the application, conceptual site plan, and submitted proffers.

Paul F. Hinson, P.E., VDOT Southern Region Land Use Engineer

Environmental, Police Department, Fire and EMS, Health Department : No comments.

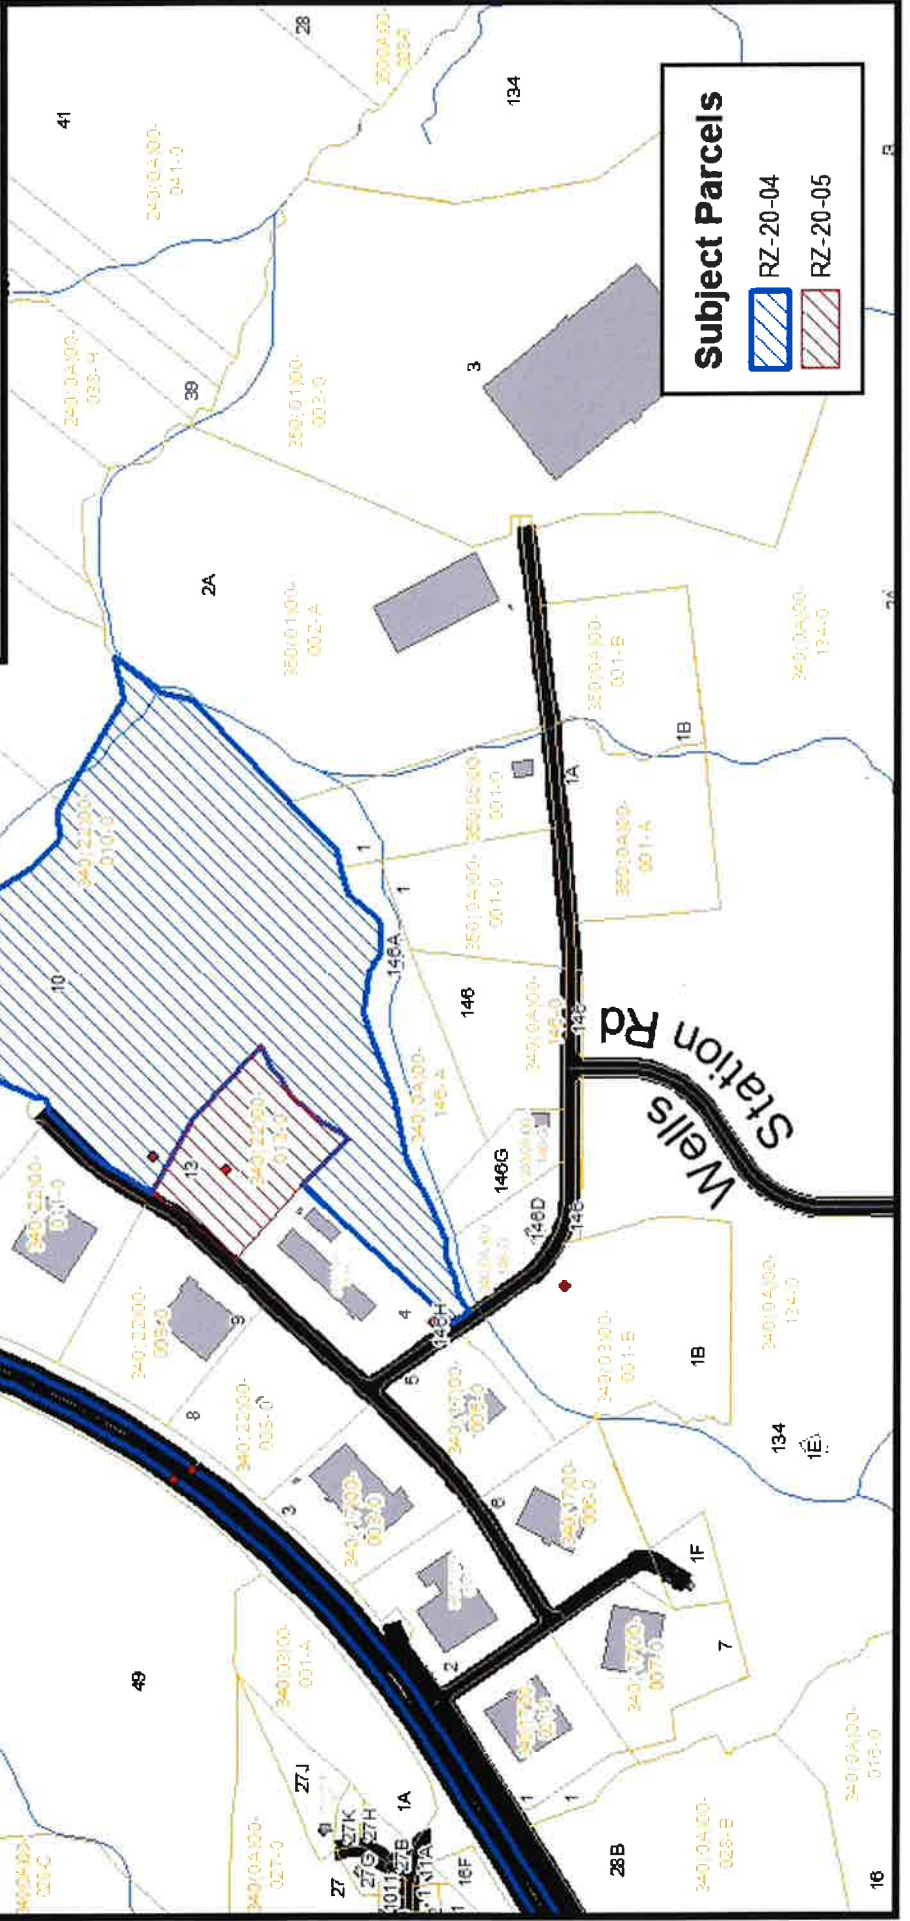

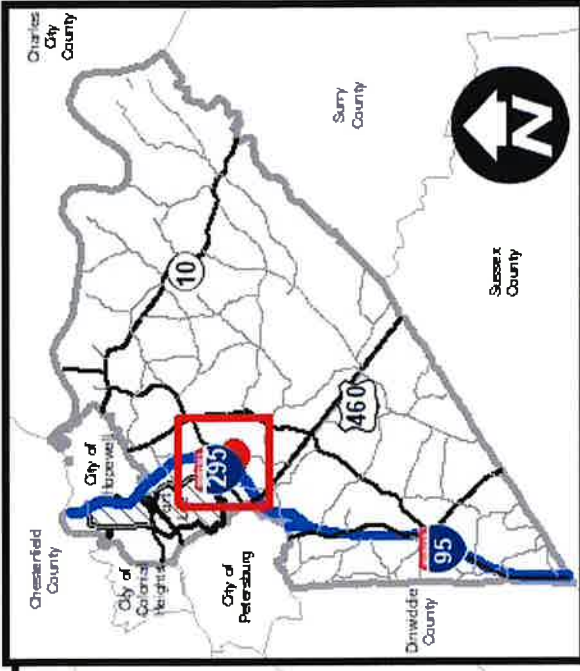

Recommendation:

Staff recommends approval of the rezoning case of RZ-20-04 subject to the following conditions for a speculative distribution warehouse of 650,000 square feet up to 940,000 square feet.

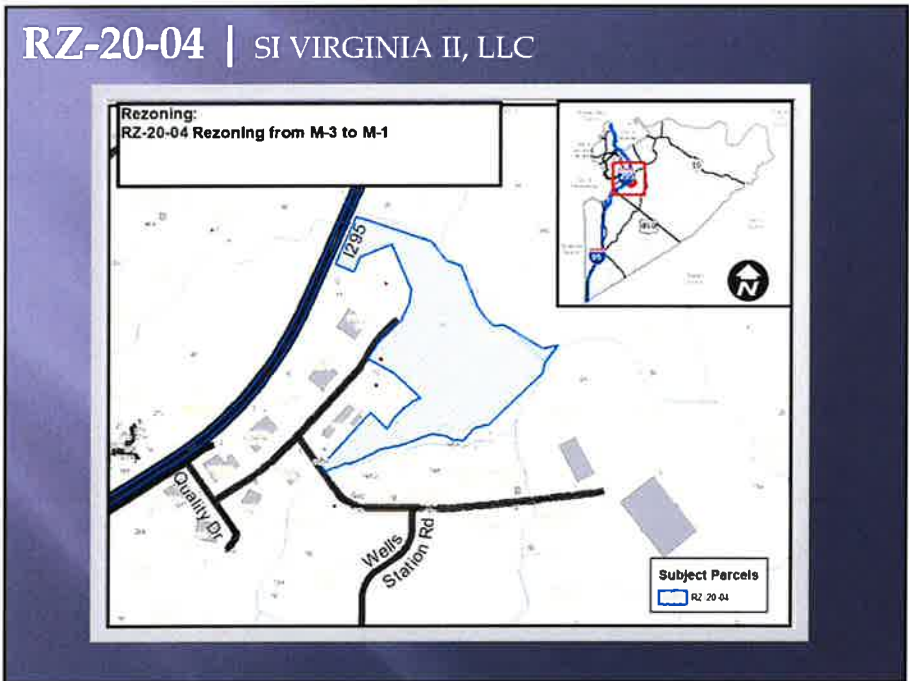

1. The Project shall be generally developed consistent with that certain conceptual plan entitled "Concept Developments, Inc. VP-163 SouthPoint Business Park Prince George" sheets: C050, C101, and C102 dated 7/28/2020, and prepared by the Land Development Solutions (the "Conceptual Plan").
2. The applicant will combine Tax Map Parcel 340(22)00-10-0 and Tax Map Parcel 340(22)00-013-0 into a single consolidated lot for the project to accommodate the size of the building and future expansion.
3. The applicant shall maintain the existing natural mature tree buffer at the edge of the wetlands as delineated by Timmons Group on the attached drawing "SouthPoint Business Park Lot 10, Figure 4: Wetlands and waters of the U.S. Delineation Map", dated 04/03/2019 which surrounds the north, east and south boundary of the site. The remaining edges of Lot 10 border on other industrial lots in the SouthPoint Business Park. The placement and design of any additional landscape buffering shall be subject to approval by the Director of Community Development and Code Compliance. The trees and shrubs shall be mostly native plants (Nativars) to Virginia. The Director of Community Development and Code Compliance, in consultation with the Police Department, shall approve a landscape plan as part of the site plan for the development and may grant minor modifications to the requirements. To ensure survival, the landscaping shall be bonded or a guarantee provided by a nursery for a period of one (1) year after installation.
4. All areas not occupied by building, structures, driveways, walkways, off street parking facilities or other authorized installations shall be covered with one or more of the following: grass, mulch, shrubbery, plants or trees.
5. Any lighting installed for the Project will not exceed a foot-candle illumination of 1.0 at the perimeter of the site.

6. The zoning on Lot 10 which is now M-3 Heavy Industrial with certain proffer limitations shall be downzoned to M-1, Limited Industrial Zoning to match Lot 13 existing zoning of M-1; furthermore the Project shall voluntarily restrict high traffic volume generating uses as described in the Institute of Traffic Engineers Trip Generational Manual 10th Edition as 155 High-Cube Fulfillment Center Warehouse and 156 High-Cube Parcel Hub Warehouse which would otherwise be permitted by right in an M-1 zone under listed use (13) Wholesale businesses and storage warehouses, and such identified high traffic volume generating uses may only be allowed by zoning case amendment to include a Chapter 527 Traffic Impact Analysis (TIA) in conjunction with the zoning case. Other use category (13) Wholesale businesses and storage warehouses that are not classified as 155 High-Cube Fulfillment Center Warehouse and 156 High-Cube Parcel Hub Warehouse shall be permitted as part of this rezoning case.
7. The Project personnel will meet with VDOT prior to start of construction activities to walk the roadway that will be used to access the site and document the current condition. Upon completion of the construction, the Project will return the roadway to as found condition prior to the start of construction per the appropriate VDOT specifications.
8. The development of the subject property of this application shall be in accordance with the conditions set forth as proffers and as depicted on the attached Conceptual Plan, dated 7/28/2020, and prepared by the Land Development Solutions. These proffers shall be enforceable in the event of transfer of the property to other parties.
