

RESUME

DISCUSSION AND POSSIBLE ACTION ON REQUEST OF PRINCE GEORGE YOUTH WRESTLING ASSOCIATION FOR USE OF THE OFFICE LOCATED BESIDE THE CAFETERIA IN THE WELLNESS CENTER.

The Prince George Youth Wrestling Association is requesting to use the office located beside the cafeteria in the Wellness Center. This room would be used as storage for various wrestling club items such as singlets, apparel, medals, scales, etc. The key would be maintained by Justin Noblin and/or Larry Laxton and would remain locked unless in use. This would be extremely beneficial in keeping club items secure and out of harms way.

The Association is also requesting that one of the window A/C units from the 2nd floor of the wellness center be put to use in the cafeteria. Their practices begin in the October/November time frame when the temperatures are still quite warm. The room, during practices with up to 35 children, can reach temperatures up to 80degF, which for many of the young wrestlers is difficult to handle. The A/C that was installed for the gymnasium and the fans that have been donated by coaches and parents do not lower the temperature sufficiently for the safety and comfort of the wrestlers.

Keith Rotzoll, Director of Parks and Recreation, and Justin Noblin of the Prince George Youth Wrestling Association will be available for questions.
