CHOOSING A STRUCTURE

A business becomes a 'legal entity' meaning that it can own property, can hold bank accounts, and pays taxes almost exactly as if it were a living citizen of the Commonwealth of Virginia. There are several types, however, each with its own benefits and limitations. While it can be changed later, it is far easier to make this decision correctly before going further.

REGISTERING YOUR BUSINESS

Virginia offers an online registration system that can accomplish this task for most users. If your business structure is too complicated for the online system, or if you are starting a non-profit organization, the forms must be filled out and filed manually with the State Corporation Commission. A lawyer can help you with this.

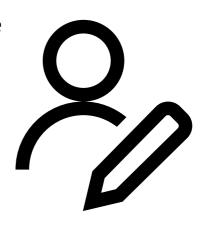

The SCC website can help you...
